PRESS RELEASE

FOR IMMEDIATE RELEASE

MARCH 4, 2016

Niche Technology is Proud to be a Silver Sponsor of the 2016 Canadian Association of Chiefs of Police Foundation Conference

MONTREAL, QUEBEC -- Niche Technology Inc. provides a police Records Management System (RMS) designed specifically for large police agencies and police consortiums, and is proud to be a Silver Sponsor of the 2016 Canadian Association of Chiefs of Police (CACP) Research Foundation Conference.

“We are honored to be a sponsor of the CACP Research Foundation Conference,” said Roland Schneider, Chief Operating Officer at Niche Technology. “Niche Technology is committed to supporting the CACP in helping public safety leaders who practice, influence and promote effective evidence-based policing.”

Our flagship product, NicheRMS, is a proven, cost-effective, Commercial Off-The-Shelf (COTS) software package that can manage all of a police organization’s operational information in a single integrated system. NicheRMS has been successfully deployed in more than 100 police agencies worldwide, including 10 of the 30 largest police agencies in the English-speaking world.

NicheRMS provides end-to-end police records management, from field reporting and management of investigations through to arrest, booking, charging and prosecution. The system’s single, integrated database also manages all details of master index persons, addresses, vehicles, objects and events. All information is available within NicheRMS, eliminating the need to maintain duplicate information in multiple systems.

NicheRMS provides a range of options for user access, including both mobile and desktop apps. Officers and administrative personnel can use the device and app that best suits their needs – anytime, anywhere, any device access to vital police information.

The CACP is dedicated to the support and promotion of efficient law enforcement and to the protection and security of the people of Canada. The conference will run from March 7th to March 9th, 2016, in Montreal, Quebec.

About Niche Technology and NicheRMS

Established in 1992, Niche Technology serves 110,800 sworn officers worldwide through the Niche Records Management System (NicheRMS). The company’s sole focus is the development, implementation, support and enhancement of law enforcement software. Niche Technology supports the specific requirements of policing to help ensure our system meets critical policing needs, especially in large police agencies. NicheRMS is used in more than 100 agencies, including 10 of the 30 largest police agencies in the English-speaking world.
