PRESS RELEASE   FOR IMMEDIATE RELEASE   OCTOBER 9, 2015

The Regional Criminal Justice Records Management System Consortium in Colorado Selects Niche Technology to Provide a Regional Records Management System

LAKEWOOD, CO -- Niche Technology, the provider of police Records Management Systems (RMS) for more than 100 police agencies, including 10 of the 30 largest agencies in the English-speaking world, has been selected by the Regional Criminal Justice Records Management System Consortium (RMSC) to provide a regional Records Management System (RMS) solution with NicheRMS.

The RMSC is comprised of police agencies from neighboring towns in central Colorado: Arvada, Edgewater, Golden, Lakewood, Wheat Ridge and the Town of Mountain View. These police agencies will use Niche RMS to seamlessly manage several key aspects of their policing duties, such as incidents, arrests, case files, property, mobile information management, crash forms and citations.

Hosted by Lakewood Police, the commercial off-the-shelf (COTS) NicheRMS system allows for joint data sharing between approximately 600 officers and staff from the RMSC. The Consortium's ability to instantly access and exchange information will result in more efficient policing, as well as increasing officer safety by providing them crucial data as they respond to calls, such as vehicle descriptions, potentially dangerous suspects or criminal networks.

"We are very excited about this collaboration between the RMSC and Niche Technology," said John Pickard, Police Commander at Lakewood Police Department. "Giving our officers instant access to information across city boundaries will not only help keep our officers safer, but will also help us better serve our citizens."

About Niche Technology and NicheRMS

Established in 1992, Niche Technology serves 108,000 sworn officers worldwide through the Niche Records Management System (NicheRMS). The company's sole focus is the development, implementation, support and enhancement of law enforcement software. Niche Technology supports the specific requirements of policing to help ensure our system meets critical policing needs, especially in large police agencies. NicheRMS is used in more than 100 agencies, including 10 of the 30 largest police agencies in the English-speaking world. To learn more about Niche Technology, please contact us at info@NicheRMS.com.
