New York State Police Chooses NicheRMS to Manage Police Operational Data

ALBANY, NY – New York State Police (NYSP) has selected NicheRMS to give the agency the modern technology to capture, view and access the operational data necessary for the NYSP to continue preventing and detecting crime.

Developed by Niche Technology, the NYSP will use NicheRMS to document cases, manage investigations, track arrests and warrants, as well as enhance the agency's reporting capabilities.

NicheRMS is a proven intelligence platform that will give the 5,000 sworn officers of the NYSP complete operational and intelligence management in a single platform. Officers and analysts from across the NYSP will be able to easily and instantly access and share information, leading to increased efficiencies. The mobile access functionality of NicheRMS will allow intelligence to be instantly provided to frontline officers, resulting in fast prediction, prevention and response times and increased officer safety.

The mission of the NYSP is that the agency "works to ensure the safety of the state's roadways, prevent and investigate crime, prepare for and respond to emergencies and disasters and provide support to other law enforcement agencies."

About Niche Technology and NicheRMS

NicheRMS is a complete, proven intelligence platform that provides policing intelligence management in a single, centralized system. NicheRMS software enables law enforcement agencies to report, prevent and solve crime. NicheRMS is licensed to more than 143,000 sworn officers across Australia, Canada, the United Kingdom and the United States. Ten of the largest 30 agencies run NicheRMS in the countries we serve.
